## **DETAILED ACTION**

### ***Continued Examination Under 37 CFR 1.114***

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on December 9, 2010 has been entered. Claims 1-3, 5, 7-18, 20-31, and 33-34 are presently pending.

### ***Claim Rejections - 35 USC § 112***

2. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

3. Claims 1-3, 5, 7-18, 20-31, and 33-34 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

The newly presented limitation "to produce a quantity of ozonated liquid that is, at any time, greater than the amount that is demanded by the operatory unit;" as recited in

Independent claims 1 and 30 is considered to be new matter. The specification does provide adequate written description or support for this limitation and only discloses the following: *"the concept is that when the device is turned on to make available ozonated liquid, the system operates continuously to produce more freshly ozonated liquid than the maximum that might be required."* (see page 7 of the specification). There is no description in the specification for producing a quantity of ozonated liquid that is, at any time, greater than the amount that is demanded by the operatory unit.

Dependent claims 2-3, 5, 7-18, 20-29, 31, and 33-34 are rejected for at least the same reasons as applied to independent claims 1 and 30 above.

#### ***Response to Arguments***

4. Applicant's arguments with respect to the pending claims have been considered but are moot in view of the new ground(s) of rejection.

#### ***Conclusion***

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Sean E. Conley whose telephone number is 571-272-8414. The examiner can normally be reached on M-F 8:30-5:00.
